HOME-FRONT HEROES!

NOT ALL THE HEROES OF THIS WAR WEAR UNIFORMS. There are Colin Kellys, Eddie O'Hares and Emmett O'Donnells on the home-front, too! And you'll find them in the nation's engineering laboratories, hard at work on some new and utterly fantastic weapon designed to spell doom for the Axis.

Tanks that drop from speeding planes, bat-like flying wings, synthetic rubber eyes that see in the dark—these are but a few of the rapid-fire developments now being prepared to greet the enemy. And newer and greater inventions are needed daily!

Read the latest news of this battle of the home-front in a real hero's magazine—MECHANIX ILLUSTRATED! Not only will it keep you up-to-date on the latest war weapons; it will tell you how you, too, can become a home-front hero, a Colin Kelly of the laboratory! In addition, MECHANIX ILLUSTRATED's 178 pages on science, photography, handicraft and every kind of hobby will convince you that it's the greatest 10¢ worth in history. Get your copy today!
